

I claim

1. A method for coloring portions of hair on a person's head while at the same sitting waving other portions of said hair comprising the steps of

selecting first portions of said person's hair for coloring;

coloring said selected first portions;

selecting second portions of said person's hair for waving and

waving said second portions.

2. A method for highlighting portions of hair on a person's head while at the same sitting waving other portions of said hair comprising the steps of

selecting first portions of said person's hair for highlighting;

applying a coloring agent to said selected first portions;

sealing said coloring agent with said selected first portions to isolate said first portions from other portions of said person's hair as well as said person's scalp;

selecting second portions of said person's hair for waving;

applying a pre-wrap solution to said second portions;

applying means to isolate said second portions from said person's scalp;

wrapping strands of hair from said second portions on rods;

applying a waving agent to said strands wrapped on said rods;

covering said person's hair;

waiting with said coloring agent applied to said first hair portions and with said waving agent applied to said second hair portions;

removing said isolation means;

removing said coloring agent from said first hair portions and said waving agent from said second hair portions;

applying a neutralizing agent to said second hair portions;

PROVISIONAL PATENT

waiting with said neutralizing agent applied; and
removing said neutralizing agent from said second hair portions.

3. The method of claim 2 further comprising the additional step of washing said person's hair, said additional step to be performed before performing said "selecting first portions" step of claim 2.

4. The method of claim 2 in which said "removing said isolation means" and said "removing said coloring dye and said waving agent" steps are performed simultaneously.

5. The method of claim 2 in which said "removing said coloring dye and waving agent" and said "removing said neutralizing agent" steps are accomplished by rinsing with water.

6. The method of claim 2 further comprising the additional step, to be performed twice, of

drying all of said person's hair;

said first additional "drying" step to be performed after said "removing said coloring agent" step and before said "removing said neutralizing agent" step, and said second additional "drying" step to be performed after said "removing said neutralizing agent" step.

7. The method of claim 6 in which both said "drying all of said person's hair" steps are accomplished by drying with a towel.

8. The method of claim 2 in which said "waiting" in each of said "waiting" steps is for a predetermined time.
